Veterinarian's Oath

Being admitted to the profession of veterinary medicine,

I solemnly swear to use my scientific knowledge and skills

for the protection of animal health,

the relief of animal suffering,

the conservation of livestock resources,

the promotion of public health,

And the advancement of medical knowledge.

I will practice my profession conscientiously,

With dignity,

And in keeping with the principles of veterinary medical ethics.

I accept as a lifelong obligation

The continual improvement

Of my professional knowledge and competence.

STUDENT AUXILIARY

1st Annual Softball Tournament ... Bake Sales ... National Board Lunches ... Dances ... Senior Spouses Luncheon ... Convention Crafts ... Pet Week ... Coloring Contest ... Speakers

These are just a few of the activities held by the Student Auxiliary this past year. Our 1st Annual Softball Tournament for students was a huge success as were our dances.

All 1st year spouses and new spouses were welcomed at a dinner in the fall and senior spouses honored in the spring.

A raffle for a quilt hand-made by members of the auxiliary raised \$500.00 for the Scholarship Fund for Veterinary Students.

The Bull

It is in captivity—
ringed, haltered, chained
to a drag
the bull is godlike

Unlike the cows
he lives alone, nuzzles
the sweet grass gingerly
to pass the time away

He kneels, lies down
and stretching out
a foreleg licks himself
about the hoof

then stays
with half-closed eyes,
Olympian commentary on
the bright passage of days.

—The round sun
smooth his lacquer
through
the glossy pinetrees

his substance hard
as ivory or glass—
through which the wind
yet plays—
milkless

he nods
the hair between his horns
and eyes matted
with hyacinthine curls

William Carlos Williams
—from Selected Poems

The Cat

As the cat
climbed over
the top of

the jamcloset
first the right
forefoot

carefully
then the hind
stepped down

into the pit of
the empty
flowerpot.

THE SUNSHINE SYMPOSIUM

So they say!

Tad Marvin, our SAVMA rep.—doing a great job.

We swear it! We'll be at that 8:00 lecture tomorrow morning.

Seniors—Your Clinicians

"Let's see now, that's 30 mls per pound per day, so that's . . ."

M E D I C I N E

SOAP, SOAP, SOAP, SOAP, . . .

Leash-manial Or was that Leishmania???

"I don't think there's anybody back there!!!"

Afternoon Medicine rounds—could we have survived without them?

Now where's that "l#%"?l? lesion?? I know it's here somewhere!!

The ureter's connected at the trigone, and the trigone's connected . . .

And he's supposed to be turned every hour.

Gas? Oxygen? Turned on??

Let's see, what happened after we opened the skin?

SURGERY

OPHTHO

"Let me put it to you this way, Fabacher, . . ."

Macho, macho man . . .

Left: Declaw—large economy sized

Right: Monkey see, monkey do??

R A D S

Who got the Rompun—Max or the horse?

It's just you and me, kid!

Quick, before the light goes out!

All set. Ready, set, . . . Did anyone set the machine??

"Oh, that white spot? That came off the chalk board . . ."

Salmonella is such fun to work with!

M

X
I

One more time, adenocarcinoma looks like what?

Oooh, what a mess!!!

Another thrilling pathology lecture, I see!

"Okay now, Jim, hold one of these . . . Jim? Jim?"

Oh, there must be an easier way!

EQUINE

"Kid, this is going to hurt you more than it will me!"

And here we have the local equine students doing their thorough lameness exam with Smiling Bill at the helm.

Livestock Show + Swine Flu = Challenge

FOOD ANIMAL

Now jam it straight down his throat, Andy.

Above: Pat signs another of his masterpieces.

Just let me see your teeth, just for a second, just, please. . . .

Below: 7 months? Try again, Mark!

THERIO

DUTIES

Innocent Seniors prepare to meet their blocks.

3-8 AM ICU shift gives Radiology students time to work through the files.

DUTIES

ICU duty—few blocks can escape it!

Not all equine emergencies are colics, you know!

DUTIES

Now let's see, when again was TID???

DUTIES

HBC's are a common sight for SAM students.

MORE

Yes, even Food Animal has emergencies.

Oh, yes! Should we not forget the infamous PHONE DUTY???

AND

CELEBRATE

See, Mom, only one hand!

That was a good one, Beck!

Everyone enjoys the pleasures of Drug Day.

Drink, drink, and be merry!

Left: Rick and Judy partake of the sunshine and fun.

Right: Party at Deb and Dan's—a real hit with everyone.

CRAWFISH '84

Ed and Mark do a little chefs' tasting.

Slurpin good!!

The Unending Feast!

Has anyone seen the paper towels??

Left: Have no fear, the beer wagon is being safely guarded!

PHILLIES CHILLIE TAKES THE WILLIES OUT OF NATIONAL BOARDS

"I don't want to discuss it!"

Har, har! That's a good one, Dan!

"You promised not to mention the exam!"

"Hi, guys!"

"One too many margaritas, eh, Tom?"

GRADUATION

Dean Besch enlightens the class one last time.

Oh, that precious piece of parchment!

A special time for family

And a special time for friends!!

THAT GOLDEN DAY!!

FOURTH AND FINAL

We came from many places
No two backgrounds just the same
Were a thrown together family
Here to play the game

For three years in a classroom
We labored hard and long
And paid the toll, to gain our goal
To sing our victory song

But the Clinics seem to change things
The Family broken in Year Four
We learned that smaller units
Skim the surface and reveal the core

Yet in all we're still a Family
And won't let those feelings pass
Reflections in the years to come
Remain tightly in our grasp

We've lived, we've loved, lost and laughed
As others have before
And as others yet to experience
The years that total four

Our worth that will be measured
Is the challenge we now face
Be honest in what you say and do
Bring honor, not disgrace

We wish to all a future bright
May God be at our side
Happiness to be the final thing
Through Life's Eternal Tide.

DRUG DAY CRAWFISH BOIL

YEARBOOK STAFF

Here it is, at last! Getting people to work on a yearbook when they have twenty-two-plus hours of schoolwork was like having a sunny day when you don't have to study—it's almost impossible. But here are the dedicated souls who sacrificed a few hours (and in some cases several days) of their time to put it all together. Many thanks and my sincere appreciation to all who helped!

The tomorrow people

They come from different parts of the country. Even from different countries of the world. People who transcend geographic boundaries and speak a language of their own. The language of veterinary research.

They are the tomorrow people. The men and women of Norden research.

Over the years, professional journals have told of their many achievements: stable cell line culture... first distemper-measles vaccine... development of temperature-specific vaccine virus... adeno type-2 respiratory

protection... E. coli vaccine with an exclusive genetically-engineered toxoid... the list goes on.

The challenge also goes on. At the moment, research projects are underway in recently enlarged facilities. Projects that may begin with something as simple as making improvements in an existing product... or as exciting as a vaccine for feline leukemia.

While there are few limitations on the scope of research, there is always present a challenge to deliver not just a new product,

but a new concept within that product. Our tomorrow people do not opt for the me-too. Rather, they seek the technological edge. The something extra that can make Norden products distinctive, exclusive... better for you and the profession.

is our today***
